

REFERENS CASE UNDERGROUND LOADER

CUSTOMER

Sandvik Mining is a business area within the Sandvik Group and a leading global supplier of equipment and tools, service and technical solutions for the mining industry. The offering covers rock drilling, rock cutting, rock crushing, loading and hauling and materials handling. Contact: Crister Lundberg (Site Manager)

SYSTEM

Sandvik LH517 Brake oil
Oil type: Shell Tellus 68
Oil volume: 500 l

PROBLEM

Sandvik Mining is working actively with the environment, reliability and cost reduction.

One aspect of this work is the oil maintenance.

Site Manager Crister Lundberg decided to use Europe Filters to clean the brake oil of a LH517 underground loader.

SOLUTION

EF2125DM-VHS

The customer chose a mobile solution EF2125DM-VHS.

THE RESULT

The result after one day of filtration is very good!
With this type of oil maintenance the customer reduces oil consumption, and the risk of breakdowns, which fits in well with Sandvik's environmental policy: ***"To reduce the impact on the environment and minimize the consumption of energy and resources."***
