System: Baler
Make: Lindeman
Oil type: OKQ8 Handel 46
Oil volume: 3000 liters
Contact: Elie Diab

PROBLEM CONTAMINATED OIL

Customer took an oil sample. Analysis comment from independent lab. were: The oil is "heavily" contaminated!
Filtration is recommended!

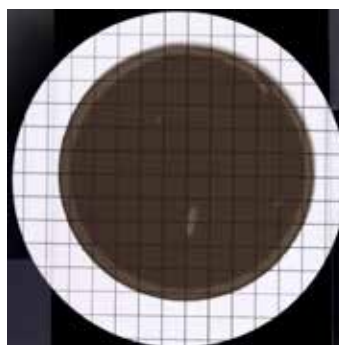

SOLUTION EF2115MD

The customer chose to install Europafilter, to improve the purity.

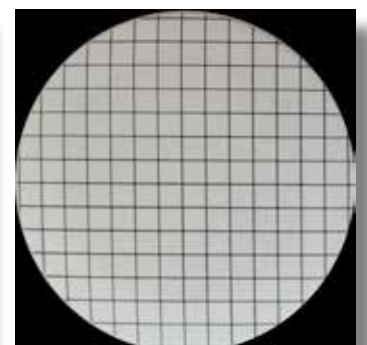

THE RESULT ENHANCED PURITY OF OIL

A clear improvement in the purity of the oil has occurred.
Comment from the lab. after 4 months is:
"The contamination content in oil is very low!"
By using Europafilter the client prevents unexpected downtime and costly oil changes.

2012-05-08 5,9 mg/100 ml

2012-09-06 0,3 mg/100 ml
